PROFILE

As a web developer intern, my primary goal is to gain practical experience by working on real-world web development projects. I am committed to enhancingmy coding skills, collaborating effectively with team members, and contributing to the success of the organization. I aspire to become a proficient web

developer and apply the knowledge and experience

gained during this internship to create innovative and user-friendly websites in the future.

PROJECTS

Myntra Clone :

Description: This project involves designing and styling web pages using HTML and CSS. Mantra is a popular meditation app, so the website would likely feature calming visuals and a user-friendly interface
